Multi purpose

Next® Eco-label

- Sustainable Resins from AOC
- For better identifying products that help to reduce emission of VOCs, use feedstock from bio-sources or recycled waste streams, or minimize environmental footprint
- Styrene-free, bio-based, recycled raw materials (e.g. PET)
- Visuals consistent with visuals of website and other branding items

AOC Vision

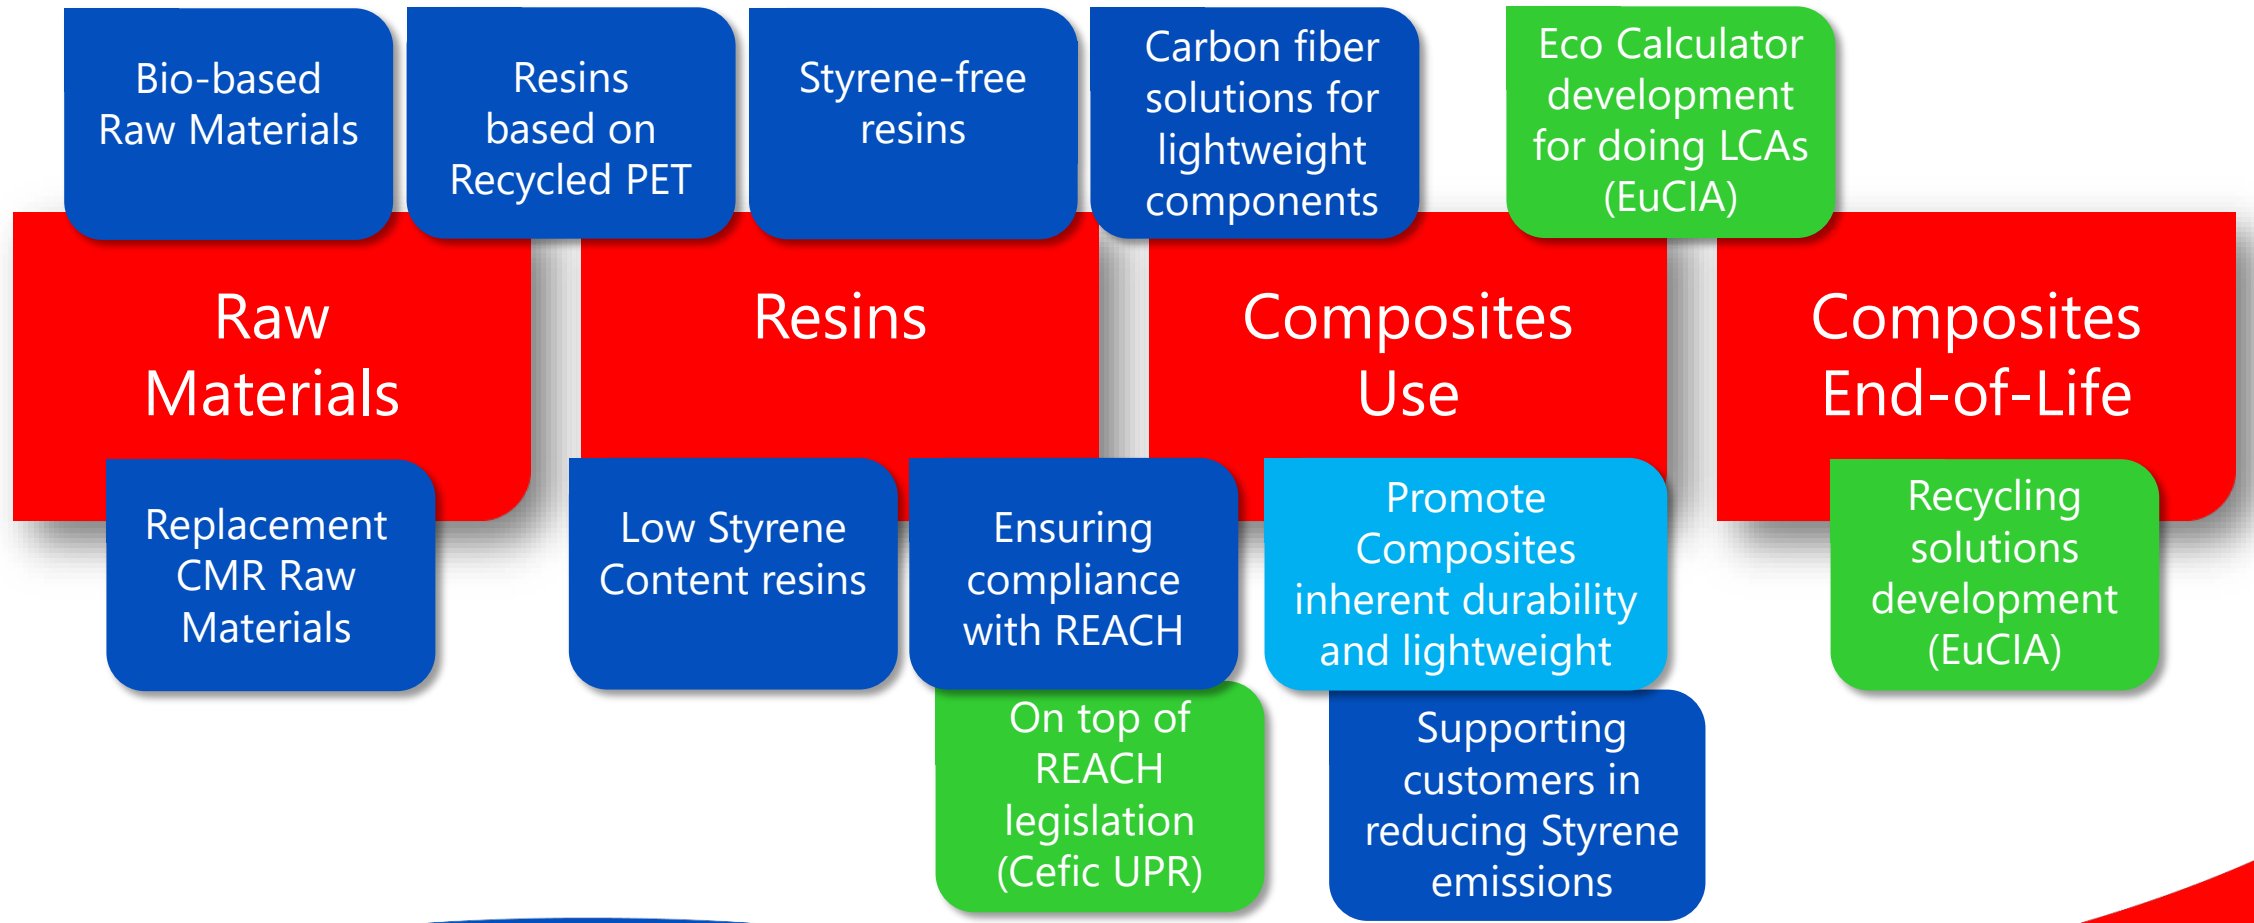

We believe that our material solutions add value to people's lives, and we will work closely with our customers to help create robust, durable and versatile products and components.

We will do so by delivering unrivaled quality, service and reliability for today, and create the most innovative solutions for tomorrow.

We will provide a safe workplace and a highly-rewarding career for our employees and demonstrate our commitment to the environment through sustainability practices.

We will be the leading global supplier of resins and specialty materials and a trusted partner to customers, employees, investors, and other stakeholders.

On Top of Sustainability
